Why Thousands of Customer Trust Us?

Sustainable Goods

We select on local brands that strongly prioritize eco-friendly production and packaging practices.

100% Traceable

KoltiTrace allows brands to access advanced features for verified supply chains and achieve 100% traceability.

Empower Local Producers

To promote ethical, high-quality products globally, our supply chain is traceable, accountable, and supports local producers' livelihood.

Ethically-Made

Promotes fair trade, environmental respect, worker empowerment, and social good, ensuring no forced labor from our curated brands.

Mission-Driven

Customer purchase creates meaningful earnings for producers, making a positive, lasting impact on their livelihoods and rural communities.

True Origin Goods

With Geographical Indication (GI) we ensure authenticity and origin, protecting against misuse and imitation, allowing customers to experience the unique characteristics of each local good.

Complete Your Online Store with Extensive Traceability Feature

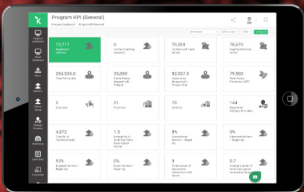

Traceability Data-Proven

Crop production traceability with complete producers' data profile and verified digital transaction from seed to table.

Geo Location Mapping

Enable your brands to **control** farm operations, make data-driven decisions, optimize cost, and improve yields with a proven system.

Farm Management

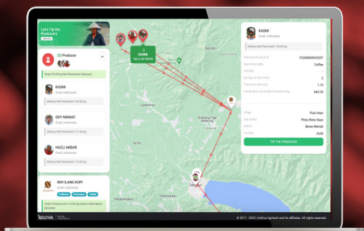

Verify traceability with a comprehensive KPI dashboard. From producers, collectors, and traders to its warehouses, processing facilities, retailers, and end customers.

Supply Chain GHG Assessment

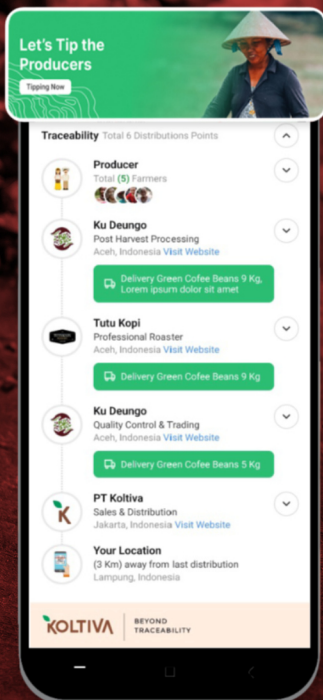

Seed to Factory Scope 3 GHG emissions, including mapping deforestation and historic Land Use Change (LUC) emissions.

Amaze Your Customer with Unique Sustainable Shopping Experience

Discover Goods Journey

Enable customers to discover their favorite goods in the place where it made. Scan the QR code and map the journey from the producers to collectors, the warehouse, until end customer.

Tip the Producers

Enable this feature and allow your customer to tip the producers directly after their online purchase.

We help connect customers with amazing brands concerned about promoting fair and ethical trade, respect for the environment, empowering workers, fair payment to producers, no child labor or forced labor, good working condition, and doing good in so many other ways.

About Us

We are Indonesia's first eCommerce platform for traceable and ethical goods, from Seed to Table. We empower consumers to take on the role of the change makers for an environmentally friendly shopping experience. We work with amazing local brands to improve producers' livelihoods, reduce rural poverty, and care about the planet.

Our Mission:

01 To Build a Better Planet with Every Purchase

02 To Make Sustainable Shopping for Ethical Goods More Affordable

We aim to encourage customers' **purchasing decisions** with the newest **sustainable** shopping experience. We believe this long-term effort will bring a huge impact, where every single business is doing good for **society** and **the planet**.

Expand Your Sustainable Online Store to Wider Market and Join KoltiTrace SHOP

A big part of our mission is to make sustainable shopping for ethical goods more affordable and accessible. We aim to make every cent our customers spend return by high-quality, ethical products.
