# FarmGate's Benefits for Seller

## Record Your Transaction Digitally

Collectors can view the records of crop transactions from producers, ensuring that the data is valid and transparent.

## High-Quality Crops

Collectors can obtain high-quality crops from registered producers to get competitive selling prices.

## Easily Organize Your Delivery

With the delivery feature, collectors are directly linked to the warehouse or company so that the delivery can be organized easily.

## Enjoy Digital Transaction

Collectors can buy crops from producers using digital payment methods (KoltiPay, BRIVA, and ATM Bersama).

# Integrated with KoltiPay

KoltiPay is available in FarmGate

Profit from the transactions goes directly into the collector's bank account.

Split Payment (Combining cash and bank transfer).

Access your transaction history anywhere through FarmGate.

Save the profit from crop transactions without going to the bank; half of the profit can be received in cash.

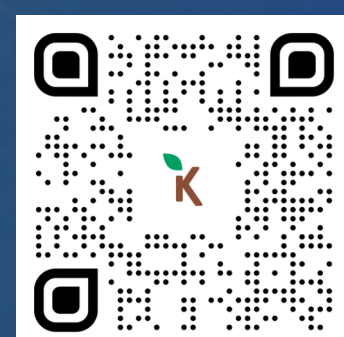

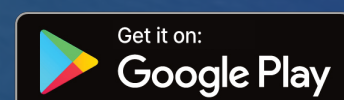

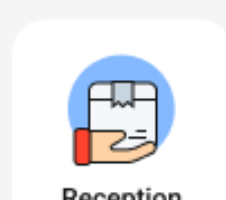

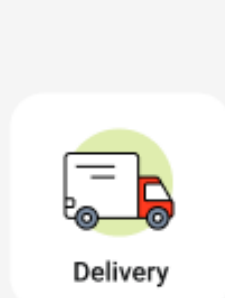

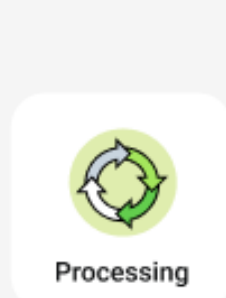

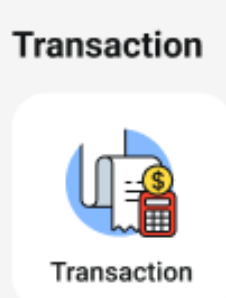

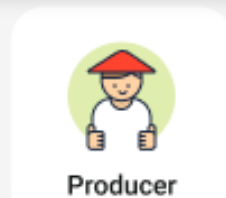

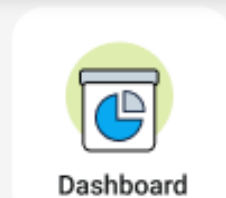

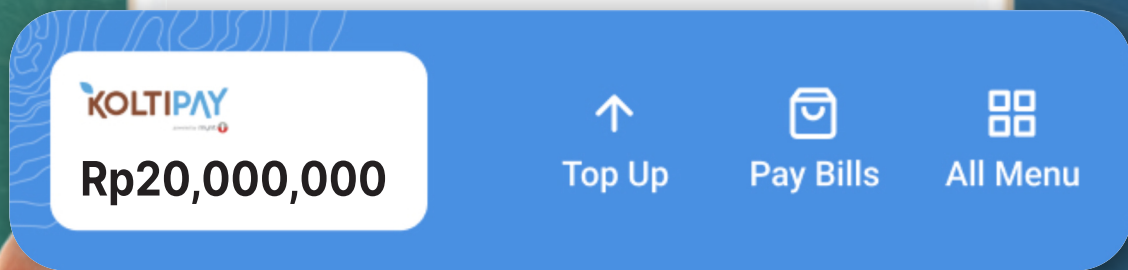

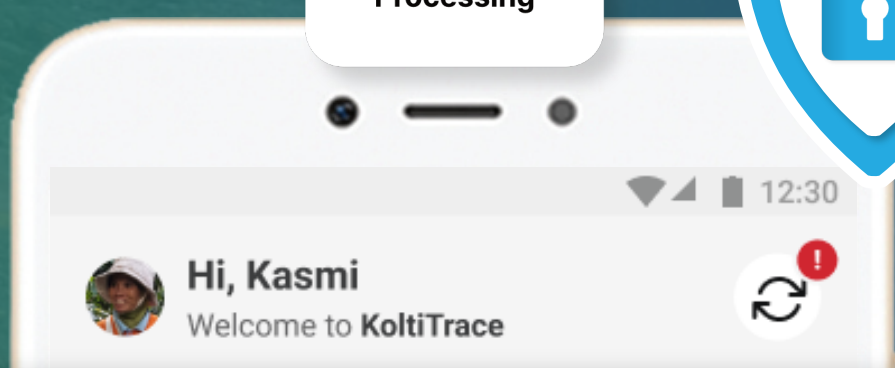

Supported by Koltiva's customer service, we are here to help solve any challenges our customers may face.
